Hearing from Our 2022 Alumni...

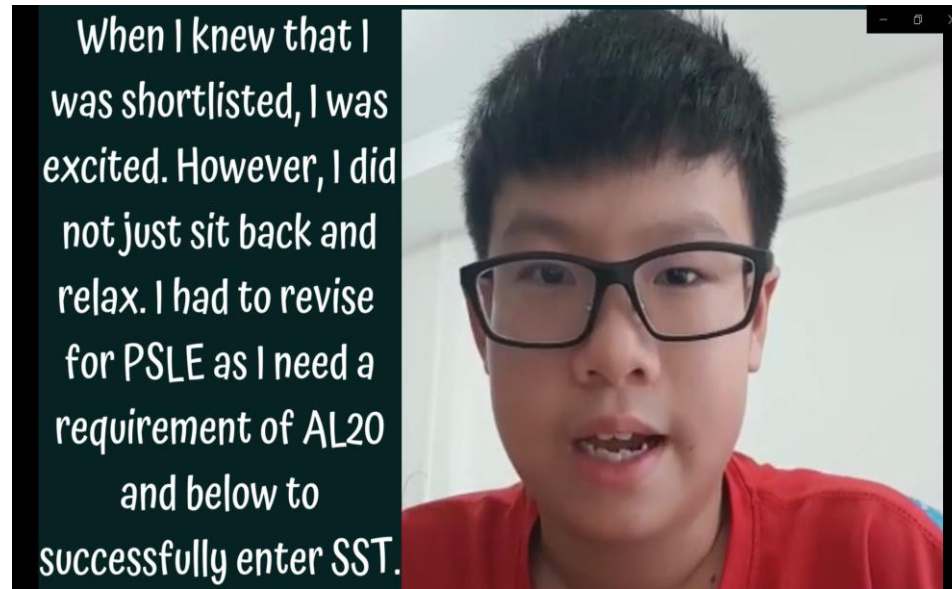

How did you prepare for DSA? Did you encounter any challenges?

I worked with my parents and came up with a DSA profile for the application. Since I was applying through the leadership domain, we worked day and night just to make sure that nothing was wrong, and everything was going well for the profile. In fact, we took about one month just for the profile!

My advice for those considering DSA is to give it your all. Once you have made the decision to apply, put in the hard work and dedication needed, and always approach it with confidence. When you have the opportunity to showcase your talents, seize it. You'll gain more experience and knowledge, which can help you become a better individual.

DSA: Choir

Be calm, don't get too nervous. Common questions that they asked are "why did you choose our school" and "what can you contribute to our school" - try to prepare answers for questions like these.

Supporting Your Child in the DSA Journey

Journey with Your Child

1. Look for a school with **programmes that match your child's strength(s) and interest(s).**
2. Learn more about the secondary school's programmes by exploring its websites and attending its Open House.
3. Find out about the academic rigour of the school and talk to your child/ward to ensure he/she can cope besides just focusing on the DSA talent area he/she can gained admission for.
4. Shortlist the schools your child/ward is keen on.
5. Be supportive and encouraging.
6. Complete the application in the DSA portal together.

What to Expect If Your Child is Shortlisted?

1. Your child will need to attend a trial or audition and an interview. The secondary school will inform you of the day and time.
2. Depending on individual school requirements, your child may be required to record a performance task in video mode and send it to the secondary school.
3. Bring along any portfolio that your child has, especially if you have submitted information on non-school based competitions and activities in the application portal (e.g. artwork or certificates)

What to Expect If Your Child is Shortlisted?

4. Go through some basic interview questions with your child.
 - Share about his/her interest in the DSA area. What has he/she done to hone his/her skills?
 - Why does he/she want to go to XX Sec school?
 - What are his/her strengths and weaknesses?
 - How did he/she overcome setbacks faced?

Tip: Share stories from their personal experience(s) in their CCA or outside school activities to help the interviewer get to know child better.

Managing Expectations (For Your Child & You)

- Be prepared for a positive and negative outcome from the DSA.
- Focus on putting in the best effort, rather than the actual outcome.
